

# Making junk fish

## Activity instructions

1. Make junk fish with the children with lots of different textured and coloured materials: silver foil, cellophane, crepe, tissue and metallic paper, ribbons, shiny fabrics, boxes, tubes.
2. Make big fish, like the Mummy fish and teeny tiny fish like Trish.
3. Support the children to make jellyfish with a card body they can paint and decorate.
4. They can add tentacles - these can be made from paper, material, wool or string. Use different lengths and compare them - short and long.
5. Talk about the different textures of the materials they use to make the fish: shiny, sparkly, soft, crunchy, crinkly.

**You will need:**  
a range of materials in a wide variety of textures and colours.

**Don't forget:**  
Create an ocean display - jellyfish look great hanging together.
